Unfinished Business

Chief Electrical/Elevator Inspector, Bret Johnston, told the Board that he and Tom Stolz, Director of

MABCD, had met with a group of sign contractors to discuss training options and potential certification for individuals doing electrical work on signs.

New Business

In order to expand training opportunities, Johnston said that MABCD was looking into the possibility of adding online training as a method of obtaining CEU's. Staff has been in discussions with a vendor to verify the availability of industry-related material. Another point of concern is whether online training can be made secure, since it is not proctored, to prevent unauthorized access by individuals other than the approved applicant.

At the end of March, AIEI will host a seminar.

Updating the Board on the co-location of the South Seneca and North Main offices, Johnston stated that the 271 Building is expected to be ready toward the end of August.

With no other business to conduct, Board Member Lenz made a motion to adjourn. Board Member Naylor seconded the motion. The motion was approved (5 – 0).

The meeting adjourned at 3:20 p.m.
